

*Let us do transport*

We have decided to introduce and operate an effective quality management system, which guarantees the impeccable quality and permanent improvement of our service to ensure customers' satisfaction.

In order to achieve that goal we have developed, implemented and now we are operating and continually improving our quality management system according to the MSZ EN ISO 9001:2009 standard.

Our business values involve the high quality of our services, as well the knowledge and experience of our professionals.

Our objective is to provide an environment to our employees, where they are able to make good use of their skills and abilities for their own and the company's benefit as well.

We aim to take every action so that, as a result of economical operation, we can ensure all-time personal and material conditions at a level that gives appropriate background for high quality work.

The customer is always in the centre of our activities. Essential element of our business policy is to provide our services fast, at a reasonable price and high quality always in compliance with deadlines.

In order to meet the needs of our clients at a high level, we have established and are maintaining mutually beneficial partnership with our carriers and subcontractors.

All our employees are required to use their individual knowledge and responsibility to contribute to the success of Ferrara 2006 Ltd.
